

# Abortions Holocaust

Only half the patients who enter an abortion clinic come out alive!

I have never known a woman who, after her baby was born, was not overjoyed that I had not killed it. *Abortionist Aleck Bourne "A Doctor Speaks" London Express, Jan 25*

If the abortion is well done, we don't have to watch the baby die. So we inject a salt solution. The result is like putting salt on a slug, but we don't have to watch it.

- *Dr. Russell Sacco M.D. quoted in James Long "Infants Aborted Alive*

You can scrape the baby out of the womb but you cannot scrape the baby out of the mind. - *Frank Ayd*

' And then to see, to be with somebody while they're having the injection when they're twenty or twenty-four weeks, and you see the baby moving around, kicking around, as this needle goes into the stomach, you know.

*Susan Lindstrom, M.S.W.*

I want the general public to know what the doctors know - that this is a person, this is a baby. That this is not some kind of blob of tissue.

*Dr. Anthony Levantino*

Describing an abortion that apparently did not prevent the child from being born alive, Dr. Haskell said this, "It came out very quickly after I put the scissors up in the cervical canal and pierced the skull and spread the scissors apart...in the previous two, I had used the suction to collapse the skull.

*- Dayton Daily News Sun Dec 10 1989*

Abortions will not let you forget. You remember the children you got that you did not get . . . *Gwendolyn Brooks*

Abortion leads to an appalling trivialization of the act of procreation. - *Donald Coggan*

In time, they will start killing grown-up people, disabled people and so on. - *Mother Teresa*

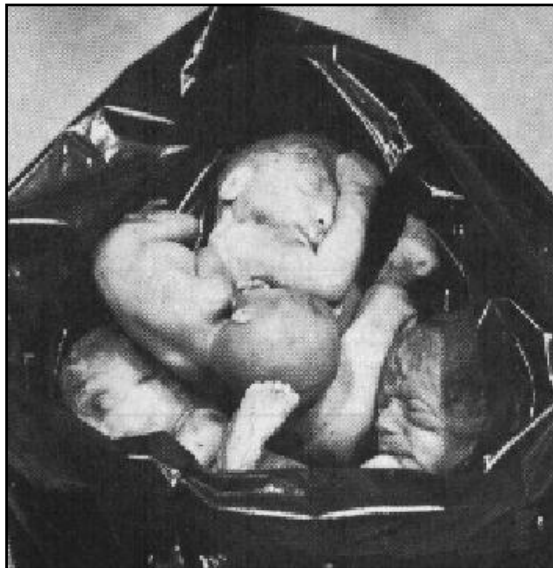

For You formed my inward parts; You covered me in my mother's womb.  
- Psalms 139:13

In 1993 Joel Brind presented his thesis, "Induced Abortion as an Independent Risk Factor for Breast Cancer," at the Association of Interdisciplinary Research in Values and Social Change held in Milwaukee, WI. Among his findings: There is an 800% increase in breast cancer for women less than 18 years old who have an abortion after the eighth week of pregnancy. On average there is an 80% increase in breast cancer if the woman has an abortion before a live birth. Risk of breast cancer increases with the number of abortions. Women who have an abortion before a live birth and develop breast cancer have a greater possibility of having a faster growing tumor with a poorer cure rate than women who have not had an abortion. Following Brind's report over 20 peer-reviewed medical studies presented similar findings indicating a possible increase in the risk of breast cancer following a forced abortion. One such report claimed a woman's chance of developing breast cancer doubles after an abortion. Cervical damage and sterility have also been connected to forced abortion. - Thomas Horn

Either life is always and in all circumstances sacred, or it is intrinsically of no account; it is inconceivable that it should be in some cases the one and in some the other. -*Malcolm Muggeridge*

100,000 Abortions are performed in Australia each year.  
- *Tony Abbot March 2004*

Abortion is a skilfully marketed product sold to a woman at a crisis time in her life.  
If the product is defective, she cannot return it for a refund. - *Carol Everett*

' We were hiding from the women some of the pieces of truth about abortion that were threatening.... It is a kind of killing  
. - *Former clinic administrator Charlotte Taft*

It is hard to imagine a more dehumanizing law. Most abortions are done after six weeks, yet at six weeks, when the face of a developing baby is touched, it moves its head back. At 11 weeks the baby will move away from a needle used for amniocentesis. It is super-sensitive to touch and the excruciation pain inflicted during an abortion is unimaginable. - *C Natta*

Guilty? Yes, no matter what the motive, love of ease, or a desire to save from suffering the unborn innocent, the woman is awfully guilty who commits the deed. It will burden her conscience in life, it will burden her soul in death; but oh! thrice guilty is he who, for selfish gratification, heedless of her prayers, indifferent to her fate, drove her to the desperation which impels her to the crime. - *Susan B. Anthon*
