Moving-Earth DECEPTION!!
By Bernard Brauer

Question: Why is it (the stationary Earth truth) important?

Answer: A stationary Earth = automatically means that stars orbit Earth once each Sidereal Day (23hrs 56min 4sec)

= no 14 billion light year radius of universe

= no 14 billion year age of universe

= destroys time needed for EVOLUTION MYTH

= entire world's "knowledge" based on "science falsely so called" is exposed as a colossal DECEPTION

= restores Bible credibility

= widespread efforts to follow Bible's rules including belief in afterlife with system of magnified rewards and punishments

= existing "crime" (sin) rate collapses. WAKE-UP ICR (Institute for Creation Research) and AiG (Answers in Genesis)!!! More [HERE](#).

If the Earth were going around the Sun, then the speed of the satellite would have to adjust due to the different gravitational pull of the Earth. When the satellite is behind the Earth it would have to "chase" the Earth. When in front of Earth, the Earth would chase the satellite. Since the Earth is supposedly going around the Sun with the speed of 107,534 km/hr, the speed of the satellite would have to DRASTICALLY change to account for the change of the gravity pull.

If the universe revolves around the Earth, Earth's gravitational pull on the satellite would be the same regardless of its position on the orbit. Furthermore, the Sun and Moon's gravities acting on Earth would balance. The Sun is bigger but farther. The Moon is smaller but closer.

1. The Earth doesn't have centrifugal force. Gravity is the same all over the Earth because the Earth doesn't move. If it did, the centrifugal force would make objects weigh TWICE less on Equator than for example in Vancouver, Canada.

2. Doing the same experiment with a SOUND WAVE fortunately can check this. Doppler's effect would apply.

3. Michelson-Morley experiment doesn't indicate that the light travels with the same speed independent of Earth's motion. It indicates that the Earth is stationary.

4. Microwave radiation is 2.7 all over the Earth because the Earth doesn't move.

5. Weight of objects would be affected depending on which side of the Earth they would be. The "density distribution" theory wouldn't help, because it would have to change non-stop as the Earth rotates. If the weight of objects is not changing with the location on Earth, then the centrifugal force couldn't possibly make the Earth bulge at the equator. That proves Newton wrong.

6. The Earth doesn't have its "density" distributed so exactly as to ideally match the centrifugal force. Such argument is self-serving, arbitrary and logically invalid because there is no evidence to measure it and therefore to support it.

(Note Earth's "density" for which there is no evidence other than that it "has to be this way").

7. The shapes of "constellations" don't change over thousands of years.
8. Earth is the only planet with millions of life forms. The Bible mentions only life on Earth.
9. Only humans are capable of having a "point of view", therefore it's OUR point of view that matters as CENTRAL.
10. Copernicus didn't provide evidence to support his theory.
11. Contrary to Copernicus, it's not mathematically possible to "calculate" if the Earth is revolving around the Sun.
12. Newton's thought experiment with a bucket of water, indicates that the Earth is not revolving. (The water should sway if the Earth was revolving). That's a classic example of lack of centrifugal force of supposedly rotating Earth.
Now we know that the Earth is not flattened on the top and bottom. If that was true, objects would weigh differently.
13. On time-delayed pictures of stars, the Polaris star almost doesn't move. The only way it can work is if both the Earth and Polaris don't move. The Earth is therefore the centre of the universe and Polaris is its end.
14. The circular movement of stars on time-delayed pictures cannot be created by Earth's rotation. If the Earth revolved the paths of stars would be horizontal not circular.
15. Satellites go around the Earth because the space around revolves, thus acting on satellites. You can even put a can of Coca Cola and make it a satellite.
16. The constellations don't change, year after year.
17. Heavenly bodies don't collapse together, because their attraction is perfectly balanced by equal centrifugal force resulting from revolving around the Earth.
18. The universe is found to expand AWAY from the Earth with EQUAL speed, that means that the Universe STARTED from the Earth.
19. God started to create the Universe from the Earth, why would a Perfect Being put it later somewhere else? Wouldn't he put it where it was supposed to be right away? He is perfect so why would He NOT start from the CENTER, as the center is perfectly balanced and therefore requires less effort to start there. By the way, did I mention that the Bible says that God created the sphere of the Earth and hang it on nothing? That was when no human could imagine the Earth hanging on nothing.

The Bible also says that the Earth is MOTIONLESS. Since rotation is "motion" and there is no motion, hence the Earth doesn't rotate.

The Earth's horizontal rotation would create horizontal paths of stars. (Pic.4)
However, what we see is this. (Pic.5)

Polaris Effect: On several time-delayed pictures there are shown circulating stars. Supposedly, because of the Earth's movement around its own axis. However, their circulation is in the wrong direction...

If the Earth is moving around, then the stars should "move" horizontally, with slight bent upwards on northern hemisphere and a slight bent downwards on southern hemisphere. That's because the Earth is a sphere. The stars should appear to move in the opposite direction to Earth's movement.

In fact, the stars are moving in a circle, around the star Polaris. Hence, "Polaris Effect". The stars on the outside of Polaris move faster. It is because the distance they travelled is bigger. They also move in unison, which proves that they are somehow connected.

To make it even more puzzling, the time interval of the film exposure does not match the part of the circle that the star would travel in that part of day. I mean if the time exposure is 4 hours, then if 24 hours is full circle then 4 hours should be one sixth of the full circle. However, it's only about 1/12. The direction of stars' rotation seems to be the same as Earth's... If Earth is turning from left to right, then the stars should appear to turn from right to left! If the stars move from left to right, then Earth may be stationary. The Polaris star is always stationary. The only way a point can remain stationary, is when both the observer and the point are stationary, or both move in unison. Since the other stars move in unison relative to the Earth, then both Polaris and Earth must be motionless!

"The Rotating/Orbiting Earth Model is very widely accepted but that is no real proof that it is true ('argumentum ad populum' in Latin or 'the bandwagon effect' in Modern English)."

"Science information and news used to be spoon-fed to you over the TV, radio, and newspapers, but now the internet exposes those channels as deceptive. The window of truthful Science News, which helps form the American psyche, set ideas in motion and advance industry, is TEMPORARILY open."

"Everyone interested in distinguishing Truth from Deception--scientific or otherwise--needs to understand the kind of programming that has gone into computerized telescopes and cameras to get them to send back Virtual Reality Images (not 'real' by definition) which are being used to indoctrinate the world with spurious information about the makeup, size and age of the universe."

"The Universe is not impersonal. It was not created by a random, meaningless evolutionary process. It reflects the loving personality of God, because every molecule was created by God, has a place in the plan of God, and is upheld by God."

*Left image (below): Earth is stationary due to perfectly balanced Interactive Electromagnetic Forces ("EM is 10 to the 39th power stronger than gravity. How can a weak force like gravity dominate in a universe that crackles and hums with electricity?").

*Right image (below): The sun's path, fixed within the rotating firmament, spiral-orbits the Earth north-south and clockwise from the Tropic of Cancer to the Tropic of Capricorn in six months and then alters course laterally to spiral-orbit south-north but continues clockwise for the next six months. Seasons result from the yearly helical oscillation of the sun's path around the untilted stationary Earth.

One's Belief about the Origin and Structure of the Universe is
the Foundation for All of One's Knowledge!

"Since a stationary Earth is THE foundational creation fact in the Bible, it is also the taproot of Bible credibility! Along with the creation of all biological life and mankind which followed, God's creation of an immovable, stationary Earth constitutes the basis - the taproot - for His "tree of knowledge" with its trunk (the creation of mankind) and all its limbs and branches. Satan knows that if he can kill this taproot - this foundational knowledge - with pseudo-science this would cause the whole "tree of knowledge" to wither and die in time. That's why he started there first!" Marshall Hall

The factless theory of heliocentricity (stationary sun, moving Earth) is the Foundation, the Kingpin and the most Satanically Venerated of all False-Science Government Funding Scams!

"Discarding Newton's seemingly innocuous inverse-square formula for gravity would have enormous consequences for the entire Earth, because with it goes the 'Big Bang' absurdity and the whole of secular cosmology (which the idea of organic evolution requires in order to sanctify the notion that anything is possible given enough time). With no publicly-perceived scientific credibility to bolster it anymore, the prevailing Western religion of naturalistic atheistic humanism must then likewise collapse."

Neville T. Jones, PhD

"If you write outside the reigning paradigm you will not get published, you will have to do it yourself. That requires a large degree of effort and dedication. You will also have to brace yourself for derision and ridicule. People will attempt to 'teach' you what you yourself are qualified to teach their teachers."

Neville T. Jones, PhD

Question: "Do you think Government funding for the Astronomical Sciences should be increased?"

Answer: "I am an amateur cosmologist but I think it would be wrong for The State ("The Government") to confiscate your property and give it to me. Nothing in the Constitution gives the Federal Government authority to take MONEY from Farmer Jones and give it to Space Scientist Smith."

Proof of Geocentric Correctness and Heliocentric Incorrectness:

Meaning of words used in this webpage compilation/portal:

In Classical Greek language, Geo means Earth and Helio means sun.

Geocentrism (GC, also called Geostatic) = nonrotating Earth, Spherical Earth, nonorbiting Earth, no "axial tilt" of Earth, sun spiral-orbits Earth; stars orbit Earth nightly. Universe has Earth as center, is small (as low as 500,000 mile radius), young and created by God. Derived from Bible Christianity. Studies and experiments mostly voluntarily financed by Family paycheck

("human creationism"), creating good "karma" or Spiritual Blessings, resulting in Research and Education Truths.

Heliocentrism (HC) =rotating Earth, Spherical Earth, orbiting Earth, Earth has "axial tilt", Earth orbits sun yearly; stars stationary to Earth. Universe is acentric (AC = no center), large, old and was created by itself (LOL!!!). Derived from Kabbala Pharisaism. Studies and experiments

mostly coercively financed by State taxpayer ("human destructionism" or "theftism" because all State taxation is theft), creating bad "karma" or Spiritual Curses, resulting in Research and Education Lies.

Geocentrism is scientific, logical and true. Heliocentrism is unscientific, illogical and false.

Planet means "wanderer" . . . The Earth is NOT a planet.

End of preface.

The Earth is NOT Moving!!

Facts: (by Marshall Hall):

- There is NO proof that the Earth rotates on an "axis" daily and orbits the sun annually. None.

- All calculations for eclipses, the space program, navigation, satellite movements - anything that demands precision and accuracy - are based on a non-moving Earth. Boiled down, heliocentric math is the same as Geocentric [also called Geostatic] math.

- NO EXPERIMENT HAS SHOWN THE EARTH TO BE MOVING (much less at 30 times rifle bullet speed in solar orbit and at 250 times RBS around a galaxy. One would think such speeds would flap one's collar a little even if the "science" establishment says no!)

- Multiple experiments have shown the Earth to be stationary.

- Revisionist history reveals the roles that Copernicus, Kepler, Galileo, Newton, Einstein, Sagan et al have played in foisting this LIE on mankind.

- The logic against a moving Earth is overpowering.

- WORLD-CLASS astronomer Sir Fred Hoyle said take your pick between the two models.

- Copernicanism paved the way for Darwinism (which then spawned Marxism, Freudism, Einsteinism and Saganism.)

- Star speeds are not a problem when the thickness of the universe is seen to be what it really is, that is, LESS than half a light day thick (8 billion mile radius).

- NASA's space program is labelled "Origins Research" and costs taxpayers mega-bucks. Computerized telescopes are programmed to send back "synthesized images". The "image warper" permits "geometric transformations" while "origins technology... configures the multiple small mirrors..." in these telescopes. Talk about a con job!

- The Bible says [67 Scriptural references HERE] The Earth is NOT Moving and cannot be moved. What'll it be folks? False science as the source of absolute truth... or God's Word?

Question:

"Does it really matter to us whether or not we rotate and orbit or just stand still?"

Answer:

Yes, it matters a great deal because proving a non-moving, non-rotating Earth to the satisfaction of the masses, would give the Bible a great degree of credibility. People would think: "Against all odds they were right, the Bible must be the Truth, the inspired, infallible Word of God." Then they would investigate the Bible and discover other truths . . . like a Judgment Day to account for their behavior during their time on Earth. After physical death souls are judged by their thoughts, words and deeds and the intentions and motivations behind their thoughts words and deeds. Great rewards and severe punishments are given (a hundred, sixty or thirty times what was sown). If people believed this there would be little crime or war in the world. No financial fraud or renegeing on business agreements, no 55% State taxation, no fractional-reserve fake money, no fake Apollo moon landing, no fake Phoenix Mars Mission, no fake Mars Reconnaissance Orbiter Mission, no self-inflicted 911 False Flag ops, no dead six million plus German Christians, no dead 500,000+ Iraqi kids, no Ali Abbas with his arms blown off.

Secondly, in order for the Earth to be stationary the stars have to be able to go around nightly, so that eliminates Mainstream Science's 78 billion light-year radius* of the universe and then that destroys the 14 billion years age of the universe built upon that radius, which knocks out the time prop needed for the evolution of the universe, Earth, and mankind. Belief in human evolutionism indirectly causes "immoral" (unLawful and Criminal) behavior. When people realize their fellow man must have been created and has not evolved from bacteria or animals then, again, they would have greater respect and awe for other created humans and not bomb them or do evil to them. In fact if there are great rewards they might be more inclined to help and to do good to others.

*"It [78 billion light-year radius] is just wise guy scientists extrapolating all over the place using pure assumptions to make a name for themselves. The Kabbalist Universe is the settled paradigm of 15/15 +or- for radius and light years. Skimming through this piece, it looks like the premise is wrong anyway, namely, that the mythical identifying of galaxies 14 billion light years distant and then using that to multiply by the speed of light. This says that the so called expansion factor has been at light year speed (c. 6 trillion miles in a year) constantly for 15 billion normal years. There is something wrong with this. (There was a Russian some years ago who settled on a 56 billion mile radius. But I think the Pharisees are happy with the 15/15 formula which dates at least from the 1st century Kabbalist HaKanna. A lifetime or two here doesn't affect that formula)." Marshall Hall

Romans Chapter 1 verses 18-22

"For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men, who hold the truth in unrighteousness; Because that which may be known of God is manifest in them; for God hath shewed it unto them. For the invisible things of him from the creation of the World are clearly seen, being understood by THE THINGS THAT ARE MADE [Earth, moon, sun, stars], even his eternal power and Godhead; so that they are without excuse: Because that, when they knew God, they glorified him not as God, neither were thankful; but became vain in their imaginations, and their foolish heart was darkened. Professing themselves to be wise, they became fools . . . "

"There can be no evolution theory of the universe, Earth, and mankind without acceptance of BILLIONS OF YEARS." Marshall Hall

Psalm 19

"Psalm 19 gives us an awesome look at the transforming power of God and his word. Verses 1-6 declare the glory of God's creation and the fact the heavens and skies are enduring evidence of God's existence and creative power."

1 The heavens declare the glory of God; and the firmament sheweth his handywork.

2 Day unto day uttereth speech, and night unto night sheweth knowledge.

3 There is no speech nor language, where their voice is not heard.

4 Their line is gone out through all the earth, and their words to the end of the world. In them hath he set a tabernacle for the sun,

5 Which is as a bridegroom coming out of his chamber, and rejoiceth as a strong man to run a race.

6 His going forth is from the end of the heaven, and his circuit unto the ends of it: and there is nothing hid from the heat thereof."

Introduction to Geocentrism - by Neville T. Jones, PhD

Geocentric means World-centred. In particular, a geocentric universe is one in which the centres of the World and of the (finite) universe coincide. Observational data, together with our instincts or senses, indicate to us that the universe is in reality geocentric. In addition, all physical experiments designed to demonstrate some alleged motion of the World have consistently produced a null result. Only theoretical ideas support a different interpretation of our surroundings than this. Cosmology is the area of physics which deals with the workings and structure of the universe as a whole. Ancient cosmologies were invariably geocentric, the main

four of which being those due to Apollonius of Perga (c.262 - c.190 BC), Hipparchus of Nicaea (c.190 - c.125 BC), Claudius Ptolemy (Latinized form of Klaudios Ptolemaios, c.90 - c.168) and Tyge (Latinized as Tycho) Brahe (1546-1601). These are often dismissed as unsound or clumsy, and certainly the deferents, epicycles and equant constructions of the Ptolemaic model, for example, cannot be defended from physical foundations. The situation with modern ideas, however, is no better in either respect, meaning that the fundamental workings of the heavens are just as relevant to us as ever they were in the past.

We feel no motion of the World on which we all live. Furthermore, no experiment in all physics has ever demonstrated that the World moves around the Sun, or that it rotates on an axis. From the standpoint of our senses, therefore, it seems simply common sense to attribute the motion of the Sun, Moon, planets and stars to those objects themselves, rather than to some multi-component, contorted movement of the World. Certainly, to a good approximation, the stars appear to go around us as if they are each attached to the inner surface of a huge celestial sphere, which is itself rotating above our heads from east to west on a celestial north-south polar axis.

Figure 1: The celestial sphere.

In some geocentric models of the universe, the Sun goes around the World every day, following a path in the sky called the ecliptic. The seasons are simply explained by the Sun traversing the ecliptic over a period of twelve months, such that the declination of the Sun (effectively a measure of its height above the celestial equator) will vary slightly from one day to the next. Contemplation of Fig. 1 will illustrate the mechanism by which the Sun reaches its highest position in the sky on the summer solstice, its lowest position on the winter solstice and that it crosses the equator at the points referred to as the vernal and autumnal equinoxes.

We are currently taught the notion that everything around us sprang into existence, of its own accord, between twelve and twenty billion years ago via an explosion of everything out of nothing. However, the considered opinion of the primary authors of this website is that such a proposal is an untenable fairy-tale (Digital Download/CD-ROM order [HERE](#)).

"Why are so many scientists LYING to us? They LIE about 911, they LIE about the Earth's supposed rotation, they LIE about Global Warming and they LIE about the Apollo Moon landing. A list of what they're HONEST about would be shorter! Is every scientist nothing more than an educated ape?"

"One does not stand a chance in a Western scientific institute unless one tows the party line. Even really great scientists and engineers have been thrown out when they start thinking for themselves (e.g. the late Professor Eric Laithwaite, the greatest electrical engineer of the 20th century, in my opinion, thrown out of Imperial College, London, when he performed 'badly' at a Royal Society lecture - see [HERE](#). Funding just dries up and one becomes 'an embarrassment' to

the institute. Thus is the Western educational establishment well stitched up . . ." Neville Jones

Heliocentric Problem Number Five - Schroter's Effect [HERE](#)

Excerpt:

"The heliocentric idea was known of in at least the third century B.C., but was rightly dismissed as being insane. The publication of a multi-volume book, in 1543, by a Sun-worshipping astrologer who knew nothing about physics, then sowed the seed of the present-day misconception that we are taught as being 'fact'. One after another, physicists placed meat on Kopernik's bare bones, with many contorted and ad hoc components of motion." Neville Jones

Mars-Landing DECEPTION!! - They are really in Australia [HERE](#).

"The Copernican [heliocentricity] heresy so thoroughly reversed man's view of the cosmos, the social order and hierarchy of moral values, that it was as if a new species of being had arisen; no doctrine has had a more pernicious influence on the human spirit. The English, French and American revolutions stemmed from it, and it paved the way for Darwinism, Marxism, Nietzsche, atheistic existentialism and Einstein. But worse, it has led to the modern doctrine of MORAL relativism, that there are no moral absolutes, which results in anarchism, hedonism and despair; also meaningless, mechanistic impersonal materialism. 'Surely our fathers have inherited nothing but lies' (Jeremiah 7)". Amnon Goldberg

Conspiracy Theory?

* Do NOT believe in or follow crackpot/wacko Conspiracy Theories (like for example heliocentricity, viz, a rotating and sun-orbiting Earth).

A conspiracy theory alleges that a coordinated group such as tax-funded "scientists" are and/or were secretly working together to commit illegal or wrongful actions including hiding the existence of the group itself and its activities. In notable cases their hypothesis, like for example a self-rotating and sun-orbiting Earth, contradicts what was or is represented as the mainstream explanation for historical or current events. For most of history Geocentrism (stationary Earth) was the prevailing mainstream cosmological worldview, and ALWAYS WAS AND STILL IS the correct worldview. The phrase "conspiracy theory" is also used dismissively to label claims or hypothetical speculations, like a self-rotating and sun-orbiting Earth -- that are alleged by experts in Geocentrism to be untrue, misconceived, paranoid, unfounded, outlandish, irrational or otherwise -- as unworthy to be considered as real science or credible based on logic, observation and experiment.

* "Data evaluation must be based on LOE (logic, observation and experiment) . . . not mere assertions, assumptions and blind faith in Einstein's "beautiful equations" . . . just because it may be "beautiful" does not mean it exists external of someone's imagination... (any more than the "universe" of a Pixar or Disney animated film does, they conform to the mathematics of their universe too!)" Allen Daves

* Ignorant folk think that such minority opinions as Geocentrism are the "conspiracy theories" . . . There is a real conspiracy for sure but the sad thing is it is mostly a "conspiracy of willful and apathetic ignorance" (for numerous reasons). The very people who would call Geocentrists "quack conspiracy theorists" are either themselves completely ignorant of even modern cosmological axioms and principles of gravitation and mechanics or they are just "playing stupid", hoping that no one will notice or call their bluff.

Most of those who pretend to be intelligent and/or knowledgeable about physics are just plain stupid, and a few are just ignorant but once you show them, if they are honest and will continue the dialogue, they say something to the effect of, "Wow! I even got a PhD in physics X number of years ago and even taught it for X number of years... I did not think about it that way... but you can't ignore those facts". You can go to any mental hospital and the population of wackos and inmates will outnumber the doctors and the sane folk, and moreover call them crazies.

What's even more hilarious is the fact that even folk like Steven Hawking and a few intellectually honest physicists and cosmologists who would read what we are saying and are capable of understanding it, know that what we have been saying is absolutely true (it is a philosophical not a logic and observational choice). Not only do they admit that but even "snicker" about it to each other...LOL... but they won't dare to address that too openly with the dumb, ignorant masses... best not to confuse the common folk with unnecessary information and facts. Even more sad are all the others out there who don't have a clue what I'm saying here and shake their heads thinking they know something about physics that tells them that the Earth moves. If only they studied the text books and peer reviewed papers a little closer, they would realize just how absolutely ignorant with a capital "I" that argument really is. Allen Daves

* Most of the scientists who resist Geocentrism certainly could be (and are, I believe) simply duped by unceasing and increasingly sophisticated indoctrination to the point that they are basically "programmed" to believe the heliocentricity world view. This doesn't mean that 80% of them won't resist like hell when God forces the truth on them and the world, but that is another story. It's the 20% or whatever that God can use and we can possibly help turn around. Marshall Hall

"I firmly believe that the American and Russian space program secrets are twofold, one is that the Earth is definitely stationary and the other is

... space travel is bogus and is impossible beyond the Van Allen radiation belts ... nothing of human origin has passed that gate, so the prince of all lies is forced to create an entire imaginary universe and solar system based solely on images from land-based astronomical observatories! After all, we must accept that the "prince of the power of the air" has dominion here for a small time? Therefore I bow to every image coming from NASA as being "suspect" in its truthfulness."

..... "Lots of people think Area 51 was created for the development of the U-2 [military spy plane] and stuff like the SR-71 [sometimes called the "Blackbird"], but it was really created to produce a fake universe and world for the USGS [United States Geological Survey] and mapping facilities all over the world." "Every image it's (the Hubble Space Telescope) sent back has been nothing but rubbish, faked and spouting the futile doctrine of a universe in chaos ... which we know not to be the case!"

"To make interstellar travel believable NASA was created. The Apollo Space Program foisted the idea that man could travel to, and walk upon, the moon. Every Apollo mission was carefully rehearsed and then filmed in large sound stages at the Atomic Energy Commissions Top Secret test site in the Nevada Desert and in a secured and guarded sound stage at the Walt Disney Studios within which was a huge scale mock-up of the moon.

No man has ever ascended higher than 300 miles, if that high, above the Earth's surface. No man has ever orbited, landed on, or walked upon the moon ...

The tremendous radiation encountered in the Van Allen Belt, solar radiation, cosmic radiation, temperature control, and many other problems connected with space travel prevent living organisms leaving our atmosphere with our known level of technology. Any intelligent high school student with a basic physics book can prove NASA faked the Apollo moon landings. If you doubt this please explain how the astronauts walked upon the moons surface enclosed in a space suit in full sunlight absorbing a minimum of 265 degrees of heat surrounded by a vacuum. "The first and most primary problem for a Christian in the 'alien messages', is that the 'Extraterrestrials' have carefully but certainly usurped the role of God. They appear as transcendent beings that are superior to man. They know what we don't know, see what we don't see, and can solve what we can't solve. Second, they usurp the role of God as Creator. God is not our Father, the 'Extraterrestrials' are. Third, if they are our creators, then we must owe something to them. How about our souls, our hearts, and our allegiance? Fourth, when the 'alien messages' are all put together, we find that their combined effect is the creation of a new religion. Themes of transcendence, supernatural entities, spiritual evolution, and our 'seeded' origins all combine to form a new, religious outlook on life." Patty Tunnicliffe

Answer: EVERYONE has a God/god/g'd ;

- themselves (humanism),
- impersonal evolutionary forces (scientism),
- The State,
- Satan,
- Oprah (occultism)

or

- The Creator God of the Christian Holy Bible.

EVERYONE is religious - a religion is a set of beliefs about

- morals
- the origin of the universe.

The RELIGIONS of Naturalistic Atheistic Humanism, Organic Evolutionism, Satanism, Guruism, and ESPECIALLY Statism ("Governmentism") have caused more deaths than anything else. True unhijacked-by-the-state Bible Christianity has not caused a single war death - EVER!

Christian Truths counteract PROPAGANDA (like heliocentricity) from those latter six RELIGIONS, among others, that many people (who incorrectly say they are not religious) now follow. Anti-church, pro-God, pro-Bible page [HERE](#).

Theoretical Science EXPOSED as RELIGIOUS and NOT Secular!!

The g'd of theoretical science is the Pharisee Religion's g'd. Anyone can read of each and every concept that makes up an evolution-based "creation scenario" that has become today's textbook cosmology and find them in ancient Rabbinic writings in the Zohar/Kabbala. It's a religion; it has a g'd. There is nothing "secular" about the "theoretical science" the world believes is really secular with no religious affiliation. [HERE](#) - scroll down to section 4)

Revolt Against Heliocentricity Now Brewing!

The Heliocentricity Model is one of the five essentials of
The Big Bang Evolutionary Paradigm

1. Big bangism
2. Expanding universe
3. Fifteen billion year old universe

- 4. Heliocentricity
- 5. Relativity

All of those essentials form an "alternate creation scenario" promoted by anti-Christ, anti-Bible Pharisaic Kabbalists. If one concludes that Geocentrism is 'unique' science based "solely on a supernatural/theological position" then what can one conclude about the 'unique' science based "solely on a supernatural/theological position" of another religion which contradicts the Bible on every major doctrine (and, of course, hates Jesus and has Him boiling in crap in hell)? Instead of starting with the Geo/helio controversy--the truth of which is indispensable to both theological positions,

perhaps we should start with the Religions and their Holy Books and the God/g'd which is behind these theological positions?

When that is done - using only facts and excluding assumptions based upon other assumptions...along with the willfully deceptive "secular" science claim...and certifiably fraudulent use of virtual reality technology - one is faced squarely with deciding which religion and which God/g'd one trusts. And, oh yes, it is useful to note the admitted theological position of the Pharisee Kabbalists is that Satan is their g'd. The heliocentricity keystone of the Kabbalist Kosmos is pure illusion in defiance of all observational evidence. Marshall Hall

"I believe the following question--in one form or another--goes to the heart of all that is called cosmology: 'Whether it is true or false that without the heliocentricity model there would be no Big Bang Model?' Moreover, I believe anyone can understand that undeviatingly factual answers to that question will identify and flush out all of the error and leave five centuries of baseless theoretical science naked and recognized for what it is, viz., a monumental deception pulled off by the Pharisee Religion working out of their anti-Bible, anti-Christ Zohar/Kabbala playbook...and, oh yes, Satan-empowered." Marshall Hall

Fake Jap Moon Photo:

It's the curvature relative to the feature sizes in the Japanese photo and then compared with the larger curvature and lesser detail in the NASA photo. Regarding the high definition of the Japanese photo, the NASA photo was supposed to have been taken on film - a very much higher resolution because of the emulsion grain size. The two moons shown cannot possibly be the same moon with or without stars... The craters appear to be too big compared to the horizon curvature. Jack Lewis

Question/Statement:

"To beg the question: to pass over or ignore a question by assuming it to be established or settled; to assume as proven the very thing one is trying to prove. Example - to pass over or ignore the question of 'Is the Earth moving?' by assuming it to be established or settled; to assume that the Earth is moving when trying to disprove that the Earth is NOT moving."

Answers by Allen Daves: start here:

1: "Excellent. Since there is no observation or experience that the Earth is moving without assuming that the Earth is indeed moving (begging the question) therefore the only logical course to begin from is a model of the Earth absent of any movement and then attempt to prove or demonstrate movement, if any. Of course all the experiments, without begging the question, would lead one to the conclusion that the Earth is in fact not in motion. It is only via the assumption of its movement, which was never demonstrated to begin with, that one can even begin to explain away the observations and experience that are consistent with the only logical positions to start from, namely that the Earth is without any demonstrable motion. Therefore to assume that the Earth does in fact move is to build upon a foundation of sand and to suggest that it is or must be moving because it could be in some theoretical or imaginary framework, and then to call it science, is not only a circular fallacy but is, well.... quite silly!"

2: The whole concept of larger objects going around smaller objects begs the question without knowledge of what and where the center of mass for all the objects in question (the universe) is in the first place. You must start with what you have not with what you imagine. To start with a model with no motion of the Earth is not a proof for or against Earth motion nor does it assume anything. It is the only logical position from which to begin the experimental and theoretical process necessary to ascertain any proof for or against. The model itself is not proof, it is only a premise or foundation for the discovery process. As stated many times one must logically begin with what you have not with what you do not have, and since proof for motion is the question, any model that assumes motion or interprets the data in terms of motion that is used to support or build upon a case for motion is a circular fallacy. Whereas taking observations and conducting experiments with no assumptions of motion is simply beginning with what you have. What you have does not include any argument or justification for incorporating that idea into ones interpretations of observations. To look out and see other objects in the heavens move does not tell you what is absolute motion, or what or whether or not you would and could feel/detect those motions if you were there ... and since you are not there ... think about that for a while.

3a: We woke up in a world where things appear to move around us. We had and have no sensation of movement itself. That is where this whole question of the Earth's movement must and did begin ... "everything moving around me." From that point a process of observation and experiment then proceeds to ascertain what is and what is not moving. Well, those experiments which were conducted to make that distinction did show that the Earth is indeed NOT moving. The observations of mass centered on the Earth also promote the Earth's centrality of that position as well. You cannot interpret those observations and experiments in light of a heliocentric framework because that is what those experiments and observations are all about. This is your circular fallacy... those who developed and conducted those experiments and observations were not assuming an Earth-centered universe ... (they were invoking a circular fallacy when they developed and performed them).

An Earth not in motion is exactly what those experiments showed, and the only thing that those observations demonstrate, without invoking circular fallacies about the Earth's movement first. It amazes me that you cannot see just how ridiculous your argument is and the fact that the only way to even begin to interpret data as consistent with the heliocentric theory is to assume that heliocentricity is preferred. There has been no experiment conducted on Earth with regard to gravity or any other theory that demonstrates anything other than what the initial observations and experiments show. They do not show things moving around you without invoking the heliocentric circular fallacy first.

3b: Heliocentricity is not logically plausible based on what is available without assuming that what you do not have is real. Your position makes no sense without assuming that heliocentricity is preferred first ... which is what everything that led up to and including today's model of heliocentricity was developed to prove in the first place.

The problem is that nothing ever did prove heliocentricity without assuming that heliocentricity was the preferred conclusion to begin with, which is what it is trying to prove! Why is it so hard for you guys to grasp your arguments utter ridiculousness? Until you have observations and experience for Earth's movement your position is as plausible as aliens and abductions... thus we should build our lives around the "fact" that they are the most reasonable and plausible explanation for all unknown phenomena!? Your arguments and examples are in fact examples, not of heliocentricity's plausibility, but rather foolishness of the highest order. Demonstrate or concede but don't use Geocentrism's evidence for heliocentricity by begging the question that heliocentricity is preferred ... because until you have that evidence for heliocentricity all the evidence supports Geocentrism without assuming anything. Starting with the very first observation ever made namely the sky is moving around you but you have no sensation of movement. All subsequent observations and experiments have been consistent with no movement of the Earth and not one has shown itself to be for heliocentricity without assuming heliocentricity is preferred first, which is the question you beg and the circular fallacy you without fail, must invoke!

4a: If you are going to appeal to observation and experiment as the solid foundation of "reasoning the issue out" then you can't appeal to theory when observation and experiment do not support that position. Theories about the aether are irrelevant. What is observed and experimentally verified, as so far as it has been conducted in every case attempted, is that relative motion can be easily distinguished from absolute motion via the effects that motion has on light in every case ever observed or performed. There is no other logical conclusion based on observation and experiment that can be logically concluded without imagining and/or assuming some other construct first, without having observational or experimental support for such a thing. You keep invoking circular fallacies and attempting to justify them via your theories and "it could" but when someone points out that it could just as well mean something else you appeal to "observations". Which is it? If you bother to think about it for any length of time you will see that in either case, theory or observation, Geocentrism is the only position that has all the possible and logically sound arguments based on what is available/observed in the past and present. Whereas heliocentricity is built on what is not observed or experienced. As for illusions, that position only makes any sense whatsoever if you have a justification for "it's an illusion" otherwise this conversation itself could just be an illusion! To say that, "it could", therefore that

is the most reasonable explanation is ridiculous as well as circular. The universe does not behave disorderly unless you assume that first - that is a fundamental difference between heliocentricity and Geocentrism. When we look out we can see some smaller objects orbiting larger objects but we do not see all smaller objects orbiting some larger objects. All assertions to that fact do assume that to be the case. But the sun circles me, I do not see me circling the sun without assuming that is what is really going on first. As for experiments and observations here on Earth we can distinguish between motion and non-motion regardless of how many "frames" we attempt to create via optical gyroscopes. There is no experiment that demonstrates that there is such a thing as a local reference frame that can be isolated from any other reference frame. So what experiments you are attempting to put forward and what laws of gravity and motion you keep trying to appeal to, do not exist to prove your conclusion without assuming your conclusion is true first. The whole heliocentric position is built on a house of cards and what's worse - none of them rate any higher than a Joker.

4b: The disagreements that do exist between the various Geocentric scientists have absolutely no bearing on the fact that the only experience available to man - observational or experimental - are only consistent with Geocentrism and are not consistent with heliocentricity without assuming

(begging the question) that the universe is heliocentric first ... that the universe is something other than what can be demonstrated from observation and experiment, if that's the case then they should have no problem with us Jesus folks, otherwise there is no observation or experiment demonstrating heliocentricity without assuming it is true first (begging the question). The heliocentrists position is not only logically untenable but has, by its own refusal to accept observation and experiment when it conflicts with its predetermined conclusion about the Earth's motion, has in effect created a "science" that can never prove anything - "ever learning and never able to come to the knowledge of the truth" of anything. If imagination is the justification for heliocentricity then it is not "science". If observation and experiment are to be the benchmarks then there is no room for the heliocentric theory except in one's imagination!

5: I have and am pointing out that GC/GS (Geocentric/Geostationary) is the only logically deduced conclusion that one can make that can be demonstrated, because you cannot reach any other conclusion without imagining what cannot or has not been observed or experienced.

Yes "theoretically" the sun or the Earth could be moving but only one of those theories/reasons

(why things look they way they do) can be demonstrated as a logically deduced conclusion whereas the other cannot without invoking pure imagination first. If you go outside, look up and see something traverse from your left to your right (could be a bird or could be a plane) your first impulse is not, "Hey I am moving", without observation and experiment (O&E) that tells you that...that would be foolish. Now, what tells you the sun is not doing the moving without imagining it first? Yes it could be. But you cannot show a logically deductive path for such a conclusion even if it were true. Therefore you cannot claim that the theory that you are moving is the most plausible explanation for what you observe any more so than with a bird or a plane.

What you seem to miss is that a theory and a logical deduction do not follow each other automatically. Feel free to theorize whatever you like but true science claims logical theories as

the best ones - and rightly so. They just don't always employ the logical ones. As with you they sometimes prefer imagination over logical deduction. Fine, but don't call it reasonable or the most plausible; there is no logic in that reason nor can you even show it any more plausible without begging the questions, or else you can suppose there are aliens that live in my attic as the theory and reason for all my troubles...

Explanation: If you took a picture of the Sun at the same time each day, would it remain in the same position? The answer is no, and the shape traced out by the Sun over the course of a year is called an analemma. The Sun will appear at its highest point of the analemma during summer and at its lowest during winter. Analemmas created from different Earth latitudes would appear at least slightly different, as well as analemmas created at a different time each day. The analemma pictured above was built up by Sun photographs taken from 1998 August through 1999 August from Ukraine. The foreground picture from the same location was taken during the early evening in 1999 July.

Three minute Music break HERE (not an endorsement of The State)

"A parable is commonly defined as "an earthly story with a heavenly meaning." It rests on the basis that man is made in the image of God, hence the natural types the Spiritual because the law of reproduction requires that everything bring forth after its kind so there is a continuity of the human with the Divine (Genesis 1:11 "And God said, Let the Earth bring forth grass, the herb yielding seed, and the fruit tree yielding fruit after his kind, whose seed is in itself, upon the Earth: and it was so." Genesis 1:26 "And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the Earth, and over every creeping thing that creepeth upon the Earth." Luke 3:38 "Which was the son of Enos, which was the son of Seth, which was the son of Adam, which was the son of God." In the parables of Jesus, the natural world becomes a visible witness reflecting the invisible spiritual realm. Jesus' purpose in employing parables was the judicial veiling of truth as well as dialectic, to discriminate between the believer, the make-believer, and the un-believer. The parable, which was to the carnal a veiling, is to the receptive a progressive revealing of the truth. It was a penalty or a blessing according to the state of the hearer: a darkening to those who loved darkness, enshrining the truth (concerning Messiah's Spiritual Kingdom—so different from Jewish expectations) from the jeers of the scoffer, and leaving something for the careless non-elect afterwards to think over, while enlightening the diligent seeker of truth. His purpose remains unchanged to this day . . . The veil was sufficiently transparent to allow the spiritual easily to see the truth [like Geocentrism] underneath, while those who were unspiritual saw only the sacred drapery of the parable in which He had wrapped the pearl so as not to cast it before swine." We Stand For NO SYSTEM

Kindom (Do No Harm Communities) is the dream for freedom, but it is the dream for the freedom of those around us who also live the dream of freedom, because it is in living for the freedom of others that we get our freedom. When we live for the dreams of Kindom of those around us, we live life as a gift because we live for (dedicate our lives to) their dream of freedom, truth, peace, joy, abundance, etc, just as they live for our Kindom dreams too. This is true co-creation (cooperation) with no attack on the uniqueness of each of us. When we live this way, we have no need for any man-made system - everything/everyone has already been taken care of by our love for life.

Just as we do not have to jump 10 feet across the room to grab our next breath, neither do we have to worry about food, water and shelter because it has all been taken care of as we each co-create Kindoms/Kin-Domains for everyone. Now everybody and everything of the dream of life that is Kindom/Paradise is free (has been set free once again). The issue is greed and selfishness, power and control trips, arrogance, ignorance, being fed many many lies and being traumatised. The issue is not overpopulation - there is more than enough land available for every family to have a hectare (2.5 acres Kin-Domain) to care for. The land of Australia can provide a Kin-Domain for every family across Earth, each with a food forest, clean fresh drinking water and plenty of space for building natural do no harm habitats and with plenty of land left over.

Everyone must have the freedom to take full-responsibility for their lives, for the water they drink, the food they eat and for their shelter. Currently, "The System" forces everyone to give up taking full-responsibility so that we become grown up children accustomed to sucking on the

nipples of "The System" corporations for everything, having to use money to get by and to follow the rules of money because we are not co-creating freedom, peace, truth, joy and abundance for each other. Money only leads to haves and have nots and all the abuse, manipulation and distractions that we are subjected to as slaves to money.

When we give up living for other's Kindom dreams, we start creating hell ("The System") all around us because we become self-centred - now it's all about "my freedom", "my money", "my land", "my belief", "my saviour", "mine", "mine", "mine", "i", "i", "i", "own", "own", "own", etc. To protect what we claim we own requires a man-made system with FORCE to protect those self-centred claims. This is ALL trauma based and all story-telling (brainwashing/braindirtying).

NO SYSTEM = KINDOM/DO NO HARM COMMUNITIES

Our true freedom comes when we set our thoughts of freedom into motion so that we live freedom rather than just talking and thinking about it while we still slave for "The System". Kindom will not happen while we meditate for hours in the bush or do yoga retreats or wait for Jesus or follow the processes of the OPPT (One People's Public Trust now called One People). This is not freedom because we are not living freedom because we are living the story-telling of Jesus or Zeitgeist or The Secret or Thrive or One Earth/Consciousness/People.

Living Kindom is very, very hard work as we set about repairing the damage to MAN/Earth/Nature that we are ALL responsible for but the burden becomes lighter the more of

us put our life-energy into the dream of returning Earth to Paradise. Day-after-day, we all have to work our arses off until Kindom is all around us (MAN) once again. This is the price we pay to set each other free on a piece of land (Kin-Domain), so that no one is under the image-power (education/brainwashing/story-telling) of another MAN anymore and so that everyone can have their space of love to create and live their unique, do no harm dreams. This only happens once we have the Kindoms set up so that everyone is provided for.

Once we re-create the food forests, whether on land or in the suburbs, we can re-claim our freedom, breaking the strangle-hold of "The System" because we are no longer reliant on its services and benefits and no longer turning each other into slaves of "The System", cogs in the wheels of "The System" machine. If we don't put the effort in to set everyone and everything free all around us then we still live in HELL ("The System"). The key is to live for everyone else's freedom so that we can have it too.

Peaceful Transition Through Sacrifice And Service

We feel there is an essential peaceful do no harm transition required to get all of MAN back to standing on MANS feet without reliance upon another MAN for water, food, shelter. As it stands everyone in "The System" are highly dependent and reliant on the "group mind-set" that forms "The System" of slaves providing services and benefits for the emotionally addicted slaves to "The System" (and you can put us in the same basket too). The transition is to get MAN back to relying ONLY on nature without 3rd party interlopers, intermeddlers, interceders getting in the way. The transition is a team effort with the foresight for setting all of MAN free down-the-line so that MAN is no longer dependent on slaves and masters providing services, benefits, privileges and exclusivity while being bound to contracts, rituals, procedures, conditions, rules & regulations which compromises MAN severely.

This transition is all about shifting from limited liability/responsibility to full liability/responsibility. This full responsibility is all about caring for our health, nature all around us, clean uncorrupted (pure) water and food, partner/co-creator, children, shelter, animal-friends in partnership, etc. In "The System", we are already together destroying each other - we have to come together to create peace together so that we can all have peace. We cannot live peacefully when we are islands, not taking full responsibility for the lives of those around us until EVERYONE can take full responsibility for their life, which means that EVERYONE is healed of system trauma. In "The System", we all come together to make slaves of each other - now is the moment to come together to set each other free, to live for each other's freedom, peace, joy and abundance. Once we have set each other free, we are free.

Once we fix these issues, we or our children or our descendants to come, can start focusing on the even bigger picture of getting back to where our ancestors were, as breatharyan's, before they fell into non-sense images to be enslaved by them.

Love For Life

**The Cristian Family
Declaration**

The Cristian family and The Love for Life Campaign are apolitical, non-religious, non-violent, anti weapons, anti drugs (both pharmaceutical and recreational) and anti any ideology that denies the existence of Do No Harm Communities (Kindoms) and suppresses the uniqueness and freedom of all men, women and children.

The Cristian family and our Love For Life work is unaligned to any big business corporation, intelligence agency, government body, "system" law, "system" think tanks, "system" green or environmental movements, religion, cult, sect, society (fraternity, brotherhood, sisterhood, order, club, etc.) secret or not, hidden agenda, law or sovereignty group, occult, esoteric, New Age or Old Age.

The Cristian family supports and promotes the remedy that brings an everlasting peace, freedom, truth, joy, abundance and do no harm for all of life without causing loss of uniqueness or the need for having slaves and rulers. We are not into following the one in front or being shepherds for sheeple. Most importantly, we take full-responsibility for everything we think, feel and do.

The Cristian family are not Christians.

THE CRISTIAN FAMILY PLEDGE

Being of clear brain, heart and intention, we each declare the following to be true:

- We have no intention of ending our own lives.
- We will not tolerate suppression of truth, ideas, freedom, or our work. We stand for freedom of speech.
- We stand together to support others in the expression of truths and freedom to speak out no matter how radical those ideas may seem.
- Standing for freedom takes courage; together we shall be strong in the face of all odds.
- If it is ever claimed that we have committed suicide, encountered an unfortunate accident, died of sickness/disease, disappeared, been institutionalized, or sold out financially or in any other way to self-interested factions, we declare those claims false and fabricated.

- We testify, assert and affirm without reservation, on behalf of all those who have dedicated their lives to the ending of secrecy and the promotion of freedom of thought, ideas and expression that we shall prevail.

- We Do Not Have Multiple Personality Disorders

Update Regarding The Love For Life Home Page And Quick User Guide

We are turning the Love for Life Quick User Guide <http://loveforlife.com.au/node/6608> into a blog of all the main insights of our work since March 2005, whether through articles, videos, podcasts or discussions/debates.

As we do not have the time to compile everything we have written into a book, as many have suggested we do, compiling all our most important work into one area of the website is a way of providing easy access to this work so those interested are able to fully comprehend the big picture.

Instead of having to find our different articles, videos, etc, in various parts of the website, it will all be accessible here: <http://loveforlife.com.au/node/6608> and here: <http://loveforlife.com.au/node/3385>.

Love For Life Videos

As amateurs and posted in the Quick User Guide below the Facebook links, we're currently creating and posting a series of videos called "The Dream Of Life" which covers the ground of all the Love For Life insights. We plan to have the videos completed by December 31st 2012.

Once this is behind us, our intention is to create a 2 hour or so video covering the body of this work. All videos are embedded in the quick user guide <http://loveforlife.com.au/node/6608> and uploaded in Arthur's YouTube channel: <http://www.youtube.com/user/ArthurLoveForLife>.

Love For Life Music

We have started recording songs, with others, that express the themes of Love For Life. They are now being posted on Arthur's YouTube channel: <http://www.youtube.com/user/ArthurLoveForLife> and are embedded in the quick user guide <http://loveforlife.com.au/node/6608>. We have over 100 songs to record. A few rough demos have already been used as the soundtrack on the first "Dream of Life" video.

About Us - Love For Life & The Cristian Family

Also, everything we, the Cristian family, have gone through, from bank fraud and the theft of the family home to death threats and attempts on Arthur's life, is documented in the Quick User Guide too. If you, the reader, are prepared to put the effort in, you will comprehend the extent to which we have all been tricked into becoming slaves, giving up our uniqueness and our full-responsibility for life and destroying everything of life to the point where life is in danger of dying out completely. You will also comprehend the remedy to all this chaos; a remedy that requires only love for life and the determination to do what needs to be done. Though our focus is very strongly on the remedy that creates a world of freedom, truth, peace, joy, abundance and Do No Harm for all of life without loss of uniqueness or the need for slaves and rulers, we realise that it is vital to comprehend how to get there and what stops us from getting there. This is why there is so much information on the hows and whys of everything going wrong in the world today. We are not into peddling conspiracy theories, we are into routing out all forms of organised crime.

FREEDOM OF SPEECH - FREEDOM OF THOUGHT

Note: Updated Wednesday 17th June 2009 8.00pm Sydney Time.

Love For Life does not support harm doing in any shape or form. However, we are supporters of free speech so we post articles, documentaries, etc, that represent a wide cross section of ideas. See the Love For Life extensive research library where there are over 11,000 individual documents, articles, videos, podcasts and debates/discussions are posted:

<http://loveforlife.com.au/node/82>. We clearly see the evidence of the destruction to MAN and Earth that has been caused by ALL religions over the centuries and are therefore not supporters of religions, cults, sects or any group that demands conformity of thought, speech or action, or has rules, regulations or rituals that must be followed. Religions, nationalities and cultural "identities" are formed as a result of the brainwashing we receive from childhood. They are part of the tactics the Establishment uses to keep us all divided from one another and fighting one another.

All religions promote discrimination and division, leading to hatred and even violence and murder. None of them have yet to produce a remedy to all the suffering, poverty, unhappiness and discrimination in the world. If any religion truly had the remedy to all the suffering on earth, there would no longer be any suffering. What have Christianity, Islam, Buddhism, Hinduism, Judaism, atheism and the New Age done to end the suffering in the world?

Freedom Of Speech - Freedom Of Thought

Since December 2006, there have been many attempts to take down the Love For Life website. Any attempts have been thwarted by Love For Life supporters inundating the harm-doers with emails, etc, objecting to them taking down the website for a variety of reasons. The trouble makers usually back off when they realise that they can post all their views, arguments, beliefs, etc, in the Love For Life website without censorship or restriction imposed. They get to see that even the Queen, Pope, Prime Minister, President of America, etc, can post all their views without hindrance or sabotage and that we support freedom of speech/thought which means we support the right of all sides to express their views.

Of note, there is a vast amount of information posted in the Love For Life website which we do not agree with but we leave it all up because we refuse to be biased, opinionated or self-centered/self-serving. Of the many thousands of comments posted over the years we have only removed posts containing secret links to commercial advertisements, terrible foul language, threats of violence and death, etc, and attacks on other people's characters that avoid the subject/debate at hand. Besides links to advertisements, we have taken down less than six comments due to the above. We usually leave everything up, all warts and all, even those posts threatening to do terrible things to Fiona, our children, our dogs, our friends, family & supporters, etc.

The Love For Life website has information from all sides on many subjects, whether about Islam, Judaism, Christianity, Law, health, psychology, mind control, vaccination, aspartame, MSG, Chemtrails etc. There are over 11,000 individual articles, documentaries, podcasts, etc on

the website and they are so diverse that we are sure that everyone would be able to find something they loved and something they hated, if they took the time to search. If we removed all the articles hated by everyone, there would probably be nothing left! We are not anti anyone but freedom of speech is freedom of speech and no one should condemn the work of another without taking the time to research the subject themselves. Yes, there are articles by those who have a less-than-rosy-viewpoint of Judaism, but there are also articles on the dark side of Tibetan Buddhism (and it is very dark) for those who are interested in the truth: Tibet - Buddhism - Dalai Lama: <http://loveforlife.com.au/node/6271> Should the authors of these articles be abused and imprisoned for daring to challenge the widely conceived reputation of Buddhism as being the religion of peace and love and that of the Dalai Lama as a saint, or should those interested be allowed to study the work and come to their own conclusions? The same applies to all the articles, documentaries, etc, about Christianity, Islam, Freemasonry, New World Order, etc.

The Love for Life website also shows how the Rule of Law, the Bar, the Government, the Monarchy, the system of commerce, the local, national and multi/trans-national private corporations, all the courses and careers on offer from our universities, all the educators, scientists, academics and experts, the aristocrats and the Establishment bloodlines have also done NOTHING to end the suffering in the world. The website maps the insanity of a world where there is no help for those in need, just as there was no help available for us when we were victims of terrible bank fraud: http://loveforlife.com.au/court_case orchestrated, condoned and protected by an international crime syndicate/terrorist organisation of judges, barristers, registrars, lawyers, politicians, banksters, big business representatives, media moguls and other lackeys who, all together, put up a wall of silence despite our trying many, many avenues. After the family home was stolen and business destroyed we were left close to poverty and destitution caring for 4 young daughters. Three years later not much has changed regardless of all our efforts. Where were all the followers of all the religions to help us? Or do we have to be members of those religions to receive help from others involved in them?

The New South Wales Jewish Board of Deputies accused us of being anti - Jewish, see: <http://loveforlife.com.au/node/6616> and <http://loveforlife.com.au/node/6665> because we had posted an excerpt from James von Brun's book: Kill the Best Gentiles! <http://loveforlife.com.au/node/6054> in which he blames Jews for the problems of the world. Obviously this is not our view because of what we have stated above. We do not hate anyone, whatever religion they follow. We are always open to talk to any religious leader or politician and meet with any judge, member of the Bar, experts, academics, educators etc to share the remedy we offer that heals all the divisions between MAN and MAN, and MAN and EARTH.

Today, a representative of the New South Wales Jewish Board of Deputies is threatening to close the website down, because they have decided it is anti - Jewish and that we promote racism. What has the New South Wales Jewish Board of Deputies done to end the suffering in the world? Can they show that they are concerned with the suffering of ALL men, women and children AND ARE SEEN TO BE DOING SOMETHING ABOUT IT or are they only concerned with Jewish affairs? If so, they, along with all the other religions that only care for their own, are part of the problem, not part of the solution. The man who rang Arthur today was only concerned with Jewish affairs; he was not interested in our intentions or in anybody else, just as most Christians, Muslims, Sikhs, Catholics, etc, are only interested in their own. While

we separate our lives into groups, dividing our lives from others with rules, regulations, rituals, procedures, conditions and contracts, we will never solve our problems.

No matter what we in the Western World Civilisation of Commerce have been promised by our politicians, religious leaders, scientists, educators, philosophers, etc, for the past two hundred years, all we have seen is ever-increasing destruction of men, women and children and Earth. None of the so-called experts and leaders we have been taught to rely on are coming up with a solution and none of them are taking full-responsibility for the fact that they can't handle the problem. All religious books talk about end times full of destruction and suffering but why do we have to follow this program when there is an alternative to hatred, mayhem and death? Why are our leaders following the program of destruction and death rather than exploring the do no harm alternatives? It seems that any mainstream politician, priest or academic are only interested in supporting the RULES OF THE DIVIDE, that maintain the haves and the have nots. For 200+ years, 99% of the world population have been so trained to pass on their responsibility for their lives, others and Earth, that the 1% of the population that make up the leaders of the rest of us are making all the decisions leading to the destruction of all of us and Earth. Let's not forget the education system that brainwashes the 99% of the population that we are free and have equal rights while, in fact, we are feathering the nests of those at the top.

At the root of all our problems is self-centredness, an unwillingness nurtured by the Establishment that keeps us concerned only with our own needs rather than the needs of others around us and Earth. Instead of creating and releasing acts of love for those around us as gifts to benefit them and Earth, we take, take and take, until there is nothing left. The whole point of the Love for Life website is to show people the root of all our problems and to share the remedy. The extensive research library is there to attract browsers and to provide access to information not available through mainstream channels. If the New South Wales Jewish Board of Deputies can, after careful examination of our work, prove that anything we are saying is wrong, we will be happy to accept their proof. If they cannot, and they are still insistent on closing the website down, they will be showing themselves to be traitors to MAN because they are not interested in pursuing any avenue that can end the suffering in the world.

All religions, corporations and organisations that support and maintain the Western World Civilisation of Commerce are part of the problem because our civilisation is a world of haves and have nots, exclusivity, privilege, racism, violence, hatred, poverty, sickness, discrimination, abuse, starvation, homelessness, corruption, collusion, vindictiveness, social unrest, arrogance, ignorance, fear, war and chaos. While we support civilisation, we support death and destruction.

If we truly want peace and freedom for all, we have to let go of all that which keeps us divided, and come together as MAN, conscious living co-creators of creation/life. The Love For Life website offers a remedy to the problems we all face in the form of DO NO HARM COMMUNITIES (KINDOMS): <http://loveforlife.com.au/node/6608> - <http://loveforlife.com.au/node/3641> For more details see here: <http://loveforlife.com.au/node/6511> and here: <http://loveforlife.com.au/node/3385> - We also highly recommend that everyone read the brilliant Russian books called The Ringing Cedars: <http://loveforlife.com.au/node/1125> - The Love For Life homepage/front-page also provides lots of inspiring remedy based information: <http://loveforlife.com.au> - If you want to be kept up to

date with our work please register to the Love For Life mailing list here:
http://loveforlife.com.au/campaign_list We usually send two postings per month. Presently (September 2011) there are over 7000 registrations reaching over 500,000 readers across Earth. The website now (September 2011) receives up to 12 million hits per month. Since December 2006, over 100 million people have visited the Love For Life website.

Clarification Regarding Our Intentions Behind The Use Of Donations

The Love For Life website is offered for free without a fee and without any conditions attached. If people are inspired to donate money, then we accept their gift and have provided an avenue for them to support the work we do through Fiona's Paypal or ANZ bank account <http://loveforlife.com.au/node/8515>. There is no obligation whatsoever to donate and all are equally welcome to our work and to our "time", whether they donate or not. Over the last 9 years, all the Love For Life work has been put out for free and it has often been donations from supporters that have enabled us to renew the domain name, etc, to keep the website going. While some complain that we have an avenue for donations, others complained when we didn't! Either use it or don't - the choice is yours.

Since Love For Life started March 2005 and website December 2006, Arthur has worked 16 hours a day, 7 days a week unpaid for much of this period, putting together the website and sharing insights to wake people up to what has been done to them, whether through the 11,500+ individual articles, videos, podcasts, debates, discussions, pdf's, research documents, etc, found amongst the 8,500+ posts, as well as helping many, many men and women over the phone, and through email, website correspondence, Facebook and YouTube, and creating the Love For Life food forest vege garden and Love For Life music recording studio. This is our life is a gift commitment to serve MAN/Nature/Earth but we are still severely compromised by "The System" and still have to give to Caesar what is claimed to belong to Caesar, which is where the donations help us.
