Barack Hussein Obama II --- Born in Kenya? --- Illegal President?

Article II, Section 1, Clause 5 of the U.S. Constitution clearly specifies the requirements for the office of President of the United States and Commander in Chief of the Military. If Barack Obama was actually born in Kenya, rather than in Hawaii as he claims, it is very likely he could be classified as not being a "Natural Born Citizen" as required by the Constitution, and therefore ineligible to hold the office to which he was elected. Mr. Obama's father, Barack Hussein Obama Sr., was born in the then-British colony of Kenya. His status was governed under the British Nationality Act of 1948 and he was a British subject/citizen and not a United States Citizen when Obama was born on August 4, 1961. His mother, Stanley Ann Dunham, was born in Kansas but, at the age of only 18 when Obama was born, was she too young to confer even ordinary US citizenship to her foreign-born child under the laws in effect at that time?
