"Because the Bible should be studied with the Bible in hand." While we love Dr. McGee's Bible Studies, he is still only human. Only the Bible is the final authority, and it must be kept close at hand during any Bible study. Dr. McGee originally intended the listeners of his five year Thru the Bible series to have their Bibles open in front of them while they listened to the broadcast. Many of us these days cannot have the actual text in front of us as we may be driving or otherwise engaged while we listen. For this reason, this site enables you to listen to the audio of chapter of scripture being expounded on just prior to hearing his comments on that same chapter.

We have renamed the file names to enable these files to be inserted amongst Dr. McGee's commentaries. They are organized numerically so that you can listen to the scripture reading of each chapter prior to the commentary on that chapter. **In order for this to work, you must copy these scripture readings into the same folder as Dr. McGee's commentary on that particular book of the Bible.** They will automatically sort themselves out alphabetically placing each Bible reading just ahead of Dr. McGee's commentary on that chapter enabling you to listen to the actual scripture reading just prior to Dr. McGee's commentary on each chapter.

Don't forget, **you will need to download download the scripture reading first**, and then **download Dr. McGee's commentaries**. After this, you can unzip and combine these two sets of files into one folder and start listening.
