

# The Involvement of Pope John Paul II and the Nazi Machine

While this is not "news", one wonders about the involvement of the church regarding the new world order and its true aspirations...

John Paul II (1978- 2005):

"In the early 1940s, the I.G. Farben Chemical Company employed a Polish salesman who sold cyanide to the Nazis for use in Auschwitz. The same salesman also worked as a chemist in the manufacture of the poison gas. This same cyanide gas along with Zyklon B and malathion was used to exterminate millions of Jews and other groups. Their bodies were then burned to ashes in the ovens. After the war the salesman, fearing for his life, joined the Catholic Church and was ordained a priest in 1946.

One of his closest friends was Dr. Wolf Szmunn, the mastermind behind the November 1978 to October 1979 and March 1980 to October 1981 experimental hepatitis B vaccine trials conducted by the Center for Disease Control in New York, San Francisco and four other American cities that loosed the plague of AIDS upon the American people.

The salesman was ordained Poland's youngest bishop in 1958. After a 30-day reign his predecessor was assassinated and our ex-cyanide gas salesman assumed the papacy as POPE JOHN PAUL II."
