New Zealand evangelist Barry Smith has just arrived back from America after preaching in 13 cities on Bible prophecy.

"One third of the Bible is prophecy and people need to know that we are living at the end of a generation," he told Challenge Weekly. "The Antichrist will be appointed soon. He will be a non religious Jew, according to Daniel 11:37. The Bible also says the trade of the world will be moved from New York to Europe and with the Euro dollar coming out on 1 January 2002 this is very interesting. However, many New Zealanders don't want to listen to these end time prophecies because they are often busy earning money. But that is going to stop! Now that the world economy is going down they will go back to the Bible."

Under attack

"I see my ministry as encouraging the saints to prepare themselves for what is to come."

Mr Smith, aged 68, did exactly this to the American people over the last three weeks after being invited to the States by the Prophecy Club. He reminded the Americans about his own and other people's prophecies. He also showed them the picture of New York under attack, taken from his book, 'The Devil's Jigsaw', published in 1998. The Americans were blown away.

"This picture, which I had drawn for me on 10 February 1998, is very prophetic and powerful. It shakes people up and they all think we are on the right track. There are many connections with it to current events: the twin towers are there, an aeroplane flying towards it, and 'Anthrax' in the clouds. On page 133 of the book I quote a Time magazine article from 1 December 1997. In it Louis Farrakhan, U.S. leader of the Nation of Islam speaking in Teheran says, "You can quote me. God will destroy America at the hands of the Muslims."

Changing times

On the night of the September 11 tragedy, Mr Smith got a call at 1:45am from a friend in America who said, "Watch CNN television".

"I saw the two towers come down, and when they said there was one hour in between, I jumped up on my bed and shouted Revelation 18:2-10! Then when I saw the smoke and a view taken from the Hudson River, Revelation 18:17-19 about Babylon came to mind. I said it can't be Saddam Hussein because it is nowhere near the sea. So it is not Babylon, it is Mystery Babylon."

Upon hearing the news of the attack, Mr Smith logged on to David Wilkerson's website. There he discovered that Mr Wilkerson of Times Square Church, New York was forewarned that a calamity was coming, weeks before September 11 happened, so they cancelled all their special speakers and scheduled meetings, and called the congregation to prayer.

Mr Wilkerson says, "Deep in my spirit, I hear the Lord saying, 'I've prospered you above all nations. Yet, for years you've persisted in worshipping idols of gold and silver, I've endured your shameless sensuality, your mockery of holy things, your shedding of innocent blood, your tireless efforts to remove me from your society. Now time is running out for you...'"

Euro Dollar

Mr Smith says the point of the argument is that Bible prophecies say the trade of the world will be moved from America to Europe. "Under the reign of the Antichrist, the American dollar will give way to the Euro dollar. That is why the whole thing is collapsing in America and I told them this while I was there."

He believes that the world has been divided into three groups. Europe, using the Euro dollar and they have their own standing army. Then the Americas, from the tip of Alaska to the tip of South America, using the American dollar. The third region is Asia Pacific, which includes all of Asia, Australia and New Zealand. Mr Smith says the New Zealand dollar will probably give way to an Asian dollar possibly the Won or the Yen.

End of a generation

Talking on these things since 1957, writing his own books and having his own newspaper, The Omega Times (www.omegatimes.org), has given Mr Smith the opportunity to study these things closely.

Mr Smith's books have gone out by the thousands, and many have turned to Christ through his ministry. "While much of what I am saying could seem controversial, I only deal with the facts and I have the information to prove what I say. We should all be open to learning and in Proverbs we read that we are best not to answer a man before

we hear. Many people around the world have told me that they laughed at my prophecies from years ago, but they are not laughing now."

Mr Smith showed Challenge Weekly a list of batch numbers which noted down a number of biochemicals, including believe it or not, Anthrax. According to this, Anthrax and other bugs were created in America which they sent to Saddam Hussein to fight Iran. "Now Saddam is going to hit America back with it. I find this amazing," says Mr Smith.

"I also discovered that the Aids virus was created in a laboratory in America, which has been proved by a Jewish fellow called Leonard Horowitz. We even have the cure for Aids. I'm a friend of the President of Kenya and they are using it there. That's how wicked and mixed up everything is. The guy who invented the cure for Aids was put in prison for practising medicine without a licence," he says.

666

One of his prophecies concerns Mystery Babylon where he says that prophetically speaking, Nebuchadnezzar's Babylon, is where Saddam Hussein lives today. "The prophecies (Revelation 16:19) tell us that in the later days there will be another system called Mystery Babylon. As with the original Babylon, the great city was divided into three parts. Today Babylon stands for three main areas; New York, Washington and Rome. They cover Economy, Politics and Religion. The world church and world government.

"The whole point is that those three areas, Economy, Politics and Religion, each of them comes to 666 (Revelation 13:18). For instance the city of New York, represents Economy and adds up to 666. (You take the number of man which is 6 = a, 12 = b, 18 = c, 24 = d). We use this alphabet because we are living in the time of the Gentiles. With this in mind you can write down words like computer, which also comes to 666. Witchcraft and New York come to 666.) Washington, which is the home of Freemasonry, represents Politics with 666 members in their government! Rome, represents religion, with the Pope whose name means 'one who stands in the place of God'. This is blasphemy because no one stands in the place of the Son of God. By adding up the numerics of the Pope's name, Vicarius Filii Dei, you come up also with 666."

Skull and Bones

When America was settled, it was done by the Pilgrim Fathers (in God we trust) and also the Freemasons who put the Eye of Lucifer on the dollar note. Many of the founders of the United States Government were Masons. The Freemasons set America up for a peculiar and particular purpose known only to the initiated few. Mr Smith has evidence to suggest that President George Bush, belongs to an all-male club called Skull and Bones, and members remain in the club for life.

"I told the Americans that their President has been reborn into two groups. The Kingdom of God, and before that he was reborn into the Skull and Bones, which is a modern version of the Illuminati. Now these 'bearers of the light' always demand that they have another name to go by so no-one would know who you were. George Bush senior was also in the same club. His name was Poppy. President George Bush is called Temporary."

Mr Smith asked the people he spoke to in American not to use this information to have a go at their President. "We have all done stupid things when we were young, but now George Bush has received Jesus as his Saviour through Billy Graham. He is born again. It is up to God to get him out of the Skull and Bones somehow, but when He does, it will kill Bush. That's why his name is Temporary."

Timing

"Everything must happen at once because Bible prophecy makes it clear from Revelation 17, that the final World Empire will be the European community.

"We have already 15 countries in the European market and 13 have applied to join which makes 28. Tony Blair says they want to set up a two tier market with the 10 nations in the inner core going for full political and monetary union. They will run the outer nations that don't go for full political and monetary union. In the Word of God the inner core is called, ten horns, ten crowns, ten kings and ten toes. That is why the trade of the world will move from America to Europe. The Antichrist must be appointed soon to run this European community."

Mark of the Beast

With the world economy collapsing Mr Smith says the mark of the beast is already being advertised around the world.

"It is a tiny radio frequency electronic chip inserted under the skin. They are already using them on animals, but they are planning on putting them into humans."

Barry Smith pointed to a front page article from a South African newspaper entitled, "Why carry cards if an implant will do the trick." A Singapore newspaper shows a man with a chip in his head. A computer magazine called Silicon Chip talks about a Digital Angel which uses the muscles of the body to regenerate the power supply. This is the reason why gold is no longer the basis of the world economy."

Antichrist

Mr Smith believes that the Antichrist will be a Jewish man, but not necessarily religious. "This is because the Jewish people will only accept a Jew. An Eskimo couldn't turn up and say I'm your Messiah, he must be Jewish.

"The man I've looked at for a long time as a possible Antichrist is Henry Kissinger, because he is the man who set up the whole world system. He is called the 'public relations man' for the New World Order.

"When the American economy collapses they will not be able to look after Israel. Israel will have to depend completely on God when the enemies come against her in the last days. This will come about after Israel and the Arabs have a seven year peace treaty according to Daniel 9:27. We will know who the Antichrist is at that point. Then there must be a big war in the Middle East between Israel and all their enemies. It will look impossible for Israel to win, but they will win because God will be with them. America will not stand behind them, because they are going to be broke. As a world power the U.S.A. is finished. That leaves the common market with the Antichrist and the new money system. The Euro will take over control of the world."

New Zealand

Barry Smith has found that quite a number of churches in New Zealand do not want to hear this end times prophecies.

"They have substituted the cross for money, they have forgotten about the Second Coming. Many of them are into false doctrine of Kingdom Now, trying to rebuild the Kingdom before Jesus comes again.

"So it is very sad for a preacher of the gospel to watch all these things happening, including myself as a New Zealander. I see that the churches of New Zealand need a fright and the fright is coming from the headquarters, America.

"World wide the churches are preaching prosperity and it has come out of America. God is sick of it and has had enough. He won't put up with that any longer. Already the Americans know this is the end and they can't stop it.

"So God in His grace is bringing the church back to Himself through a crisis. My son Andrew says, 'Good times never change character', bad times bring us back to reality and onto our knees and that's where New Zealand is going at the moment."

Hope

There have been times when Mr. Smith has got really down looking at the things to come. But he now points to Luke 21:25 and Luke 21:28 where the key word here is 'perplexity'.

"That is where we are at the moment. The world is perplexed and no one knows what to do. Then the Bible says when these things begin to come to pass, look up, lift up your head for your redemption draws near. That is the key and it set me free! The other one is Psalm 2. How does God view this world government thing? God's view is laughter. Therefore if we are seated with him in heavenly places we can laugh also and use all this information as an evangelistic tool. Not to frighten people, but to tell them this is where we are at and that we all need a spiritual basis for our life."

"This is what the LORD Almighty says: 'In a little while I will once more shake the heavens and the earth, the sea and the dry land. I will shake all nations, and the desired of all nations will come, and I will fill this house with glory,' says the LORD Almighty." (Haggai 2:6-7)

Wake-up call

The September 11 disaster is a wake up call to His people, according to this Kiwi evangelist. In the Old Testament God used a group called the Chaldeans to come against His people when Israel disobeyed Him. In like manner these days God is using the September 11 attack to wake up Americans and all nations who have turned away from Him, says Mr Smith.

"Habbakuk 1:6-11 implies that this is to wake up America. These terrorists are scoffing at the power of the US and according to, David Wilkerson of Times Square Church New York, the city of New York will be turned to dust.

According to Barry Smith the Muslims are also imputing their power to Allah. It is a fight between Allah and Yahweh. God is using these Arab people to act as a scourge upon His people, to bring them back to their knees.

Domino effect

Mr Smith says that New Zealand also needs to be brought back to their knees. In pointing to Haggai 2:6, our nation will also have a shake up, because we are part of the international scene and it is all part of the domino effect where if one nation goes down they all go down.

"That is why the Bank for International Settlements is trying to prop up Argentina at the moment because if Argentina goes down, the countries of Asia will also go down which includes NZ and Australia. Same thing with Japan, where things are getting worse and worse. America tries to build confidence saying it is looking good, but it is not looking good at all. The insurance bill alone for the Twin Towers will be outrageous."

Barry Smith says there are some preachers who do not speak on these things because they only believe in positive confession but we are called to preach the whole gospel, he says.

Hebrews 12:26-27 speaks of a shaking that will take place. "Removing of what can be shaken—that is, created things—so that what cannot be shaken may remain."

This author of six books says God is going to shake every country and every individual and we will find out who has got the real thing. "We need true faith that is born of the spirit of God and is initiated by God in the heart of a man, not dreamed up by man and spoken by his lips."

Prophecies fulfilled

Looking again through his books Mr Smith discovered that 46 of his prophecies have been fulfilled. Possibly the most significant one is New York under attack picture which was published in 1998 showing the twin towers with an aeroplane flying towards it and "Anthrax" written in the clouds. (See Challenge Weekly Nov 13) In a 1985 book he wrote that there would be people jumping to their death. This happened during the Asian downturn and during the 1929 stock market crash in New York. Then again in the more-recent Asian downturn, not to mention those who jumped out of the Twin Towers buildings on September 11.

Also in 1985 Mr Smith, pointed out that credit cards would take over from cash. This is especially true in New Zealand but Americans still use cash all the time but he believes that this will change as they will be forced into the cards. Another important one was in 1980 when he said that George Bush senior would become the next president. He became president in 1989-93.

"In 1989 in my book Final Notice, I noted that AIDS was created by man which has now been established by a man called Leonard Horowitz. Also in this book I said that unions are finished in New Zealand until the country is sold out. Helen Clark brought unions back in again, once the country was sold."

Another significant fulfilled prophecy concerns the Nauruan people who lived on a phosphate island and were worth millions. But they were not allowed to touch their money and sure enough this year they were declared bankrupt because they sold all their phosphate and have nothing left. This was predicted in 1989.

The other one is that America and the UK must always work together.

They are saying now that Britain must join the Euro and there will be a referendum before the next election. Mr Smith predicts the result of this will be that Britain will join the Euro, which will take precedence over the American dollar. Then America will start going down and Europe will start becoming the power base with the Antichrist and their new money system, the Euro.

Electronic control

In the wake of the terrorist attacks on the United States, British Prime Minister, Tony Blair is considering compulsory identity cards as part of a review of security laws in his country.

They are now saying that America is in danger of being hit by small-pox. Mr Smith received an article from a Dr Rod Lewis dated 6 November 2001, entitled "Small-pox Vaccines a way to Implant America".

Mr Smith quoted the article saying, "HHS and his head honcho Tommy Thompson, are feverishly attempting to negotiate a pharmaceutical deal to produce 300 million doses of small-pox vaccines. They want to vaccinate everybody in the US. Now every American will have his or her name on the dose and the vaccine will have the chip in it. You step up to the pneumatic injection and then you are a walking data base and transmitter."

This is one way to receive the chip says Mr Smith although he is not saying it is going to happen exactly like this, but it will happen.

"All this is being used to control the people and gradually take charge over their lives"

With his own eyes Mr Smith has seen that the US is already using this technology on their US Marines. Barry Smith spoke with a former US Marine a couple of months ago. He was told him that he and many other Marines have been implanted with this ID chip, on the site of their small-pox vaccination scar. These were the outdated versions of the microchips because the scanner had to be held right over the small-pox scar and their number was displayed.

"The chips are powered by a thermal gradient," explains Mr Smith. "And the highest gradients are on the head, hands and arms. Now they are working on developing the chip and giving it out with the small-pox vaccines because they know that Saddam Hussein is in possession of the small-pox virus."

God in anthems

We remember the images when the Twin Towers came down and heard people all over New York saying "Oh my God!" Now the question is who are they talking about? Maybe some of them would not have been believers in Jesus at all.

"I tremble when I hear people saying "Oh my God" especially when these people may not know God. Therefore why are they saying it? I acknowledge that there is a

spiritual need within every man to believe in a supreme being but when people say "Oh my God" in a time of crisis, they often don't even realise they have said it. God can hear those words though and God is more merciful than most Christians I find."

"God Bless America", is a phrase we continually hear but how can God bless America if they have cut out prayer and Bible reading in schools?" asks this world travelling evangelist. Mr Smith says people need to ask themselves when they are singing those sorts of songs, which god are they praying to.

"When New Zealanders sing 'God defend New Zealand', how many New Zealanders actually know the Lord? In John 14:6 Jesus says 'I am the way and the truth and the life. No one comes to the Father except through me.' People need to come to a conclusion in their minds on who Jesus is? However when Christians sing it, it makes all the difference," says Mr Smith.

The world scene

Barry Smith believes that the world scene is coming to a culmination with the aim of setting up a world government. He says it is interesting that the world government people chose New Zealander Mike Moore to be the head of the World Trade Organisation. He knows all about restructuring for the New World Order because NZ was the test case.

Prayer

Prayer is one of the keys during this time, Mr Smith reminds us.

"America has got itself into a bind through political correctness. But there will come a stage where political correctness will have to give way to reality. We need to pray for President George Bush and all our leaders. (1 Timothy 2:1-4) We pray for these people in leadership so we may lead a peaceful and quiet life in honesty and Godliness.

"Additionally we have to remember to pray for Osama bin Laden as he has a soul like everyone else. The thought of anyone going to hell should be appalling to a born again believer in Jesus, says Mr Smith. "Our faith in Jesus is based on love and not hate and revenge. That man is going somewhere for eternity. He is a very sick man on dialysis with kidney and liver trouble.

"I believe that government figures wanted to zoom in on one particular character so the world will feel secure. Just as they zoomed in on Saddam Hussein 10 years earlier

through George Bush Senior, his son is now zooming in on another character; however I'm suggesting that there are many other people involved.

"I believe that it is possible that the Illuminati is behind everything that has happened. The Illuminati wanted a major crisis to get things cracking to introduce the formation of New World Order and get it underway. This is a spiritual battle for the soul of the world."

Revelation

Mr Smith believes that the book of Revelation seems to be getting ready to be fulfilled. Saying that at any time we could see a third of the population being wiped out, all the terrorists need to do is put bio-chemical warfare in the water supplies of all the major cities and where would we all be? He predicts that it will not take long for the terrorists to do it or something similar. "The terrorists have caused mayhem once and they have got the attention of the whole world so of course they are going to keep going now."

The only way for America to be saved is if like the city of Nineveh, they repent as a nation and God in his mercy and longsuffering, He spares them from any further suffering.

"The world is sitting on the edge of the time bomb. It is for this reason that I say nobody is safe in any country unless they are under the blood of Jesus. There is no point in trying to be positive all the time as there are negatives and positives throughout life and God is the one who carries us through them (Hebrews 11:33).

We have faith that the Lord knows what He is doing and we are going to worship Him.
