

# Nazi's used Sodium Fluoride

Friday 4 April 2008,

What if I told you the Nazi's used Sodium Fluoride in their camps?....would you doubt that?

Here is a German reporter talking about fluoride in Nazi camps:

The first occurrence of fluoridated drinking water on Earth was found in Germany's Nazi prison camps. The Gestapo had little concern about fluoride's supposed effect on children's teeth; their alleged reason for mass-medicating water with sodium fluoride was to sterilize humans and force the people in their concentration camps into calm submission. (Ref. book: "The Crime and Punishment of I.G. Farben" by Joseph Borkin.)

The following letter was received by the Lee Foundation for Nutritional Research, Milwaukee Wisconsin, on 2 October 1954, from Mr. Charles Perkins, a chemist:

"I have your letter of September 29 asking for further documentation regarding a statement made in my book, The Truth About Water Fluoridation, to the effect that the idea of water fluoridation was brought to England from Russia by the Russian Communist Kreminoff. "In the 1930's, Hitler and the German Nazi's envisioned a world to be dominated and controlled by a Nazi philosophy of pan-Germanism. The German chemists worked out a very ingenious and far-reaching plan of mass-control which was submitted to and adopted by the German General Staff. This plan was to control the population in any

given area through mass medication of drinking water supplies. By this method they could control the population in whole areas, reduce population by water medication that would produce sterility in women, and so on. In this scheme of mass-control, sodium fluoride occupied a prominent place. ...

"Repeated doses of infinitesimal amounts of fluoride will in time reduce an individual's power to resist domination, by slowly poisoning and narcotizing a certain area of the brain, thus making him submissive to the will of those who wish to govern him. [A convenient light lobotomy]

"The real reason behind water fluoridation is not to benefit children's teeth. If this were the real reason there are many ways in which it could be done that are much easier, cheaper, and far more effective. The real purpose behind water fluoridation is to reduce the resistance of the masses to domination and control and loss of liberty.

"When the Nazis under Hitler decided to go into Poland, both the German General Staff and the Russian General Staff exchanged scientific and military ideas, plans, and personnel, and the scheme of mass control through water medication was seized upon by the Russian Communists because it fitted ideally into their plan to communize the world. ...

"I was told of this entire scheme by a German chemist who was an official of the great IG Farben chemical industries and was also prominent in the Nazi movement at the time. I say this with all the earnestness and sincerity of a scientist who has spent nearly 20 years' research into the chemistry, biochemistry, physiology and pathology of fluorine--any person who drinks artificially fluorinated water for a period of one year or more will never again be the same person mentally or physically."  
 CHARLES E. PERKINS, Chemist, 2 October 1954.

## Use of Sodium Fluoride for mass behaviour control in Nazi Germany

It is a matter of record that sodium fluoride has been used for behaviour control of populations.

### FLUORIDATION

Mind Control of the Masses  
 by Ian E. Stephen

In an "Address in Reply to the Governor's Speech to Parliament", Mr. Harley Rivers Dickinson, Liberal Party Member of the Victorian Parliament for South Barwon, Australia [In Australia, parliamentarian Mr. Harley Dickenson raised the issue in the Victorian Legislative council, which is recorded in the official Hansard report on August 12th, 1987] made a statement on the historical use of fluorides for behaviour control.

Mr. Dickinson reveals that,

"At the end of the Second World War, the United States Government sent Charles Elliot Perkins, a research worker in chemistry, biochemistry, physiology and pathology, to take charge of the vast Farben chemical plants in Germany. While there, he was told by German chemists of a scheme which had been worked out by them during the war and adopted by the German General Staff.

"This scheme was to control the population in any given area through mass medication of drinking water. In this scheme, sodium fluoride occupied a prominent place.

"Repeated doses of infinitesimal amounts of fluoride will in time reduce an individual's power to resist domination by slowly poisoning and narcotising a certain area of the brain, and will thus make him submissive to the will of those who wish to govern him.

"Both the Germans and the Russians added fluoride to the drinking water of prisoners of war to make them stupid and docile."

It is interesting that Dr. George Estabrooks, an advisor to the United States Government on hypnotism and psychological behaviour control, later became chairman of the Department of Psychology at Colgate University. Internationally, Colgate was and remains today the most ardent producer and advocate for fluoridated toothpaste. The use of chemicals by the government to modify behaviour of select population groups is not new. During the first two World Wars, bromides were administered to service men to dim the libido in an attempt to inhibit forays into local bordellos.

Today, in Australia, the military fluoridates the drinking water of the soldiers, ostensibly to protect the teeth. However, since the mythical ability of fluorides "to prevent tooth decay" only exists for those under the age of 12, it is certain that the real purpose is less altruistic. In volume one of Matrix III, we discussed the role of Alcoa Aluminium in the production of fluoride, the role of Alcoa lawyer Oscar Ewing, who eventually gained control of what was to become the United States Public Health Service, his promotion of fluoridation and the use of advertising and false propaganda in an attempt to sell water fluoridation to an unsuspecting public. Interestingly, it turns out that Alcoa transferred its sodium fluoride production technology to Germany in 1939 under the Alted Agreement, and Dow Chemical Company transmitted its experience and technology to Germany during the same period.

So, we have the U.S. transmitting technology to Germany before the war that allows Germany to experiment on select elements of the European population, and then after the war Nazi scientists and the results of experiments are brought back to the United States under Operation Paperclip. Curious, isn't it?

A little research turned up the fact that I.G. Farben developed organophosphate nerve agents, Zyklon B cyanide-based extermination gas used on the Jews during the war, and many other interesting substances. I.G. Farben, financially supported by the United States, was the first to develop and process heroin and cocaine. They also developed fluorinated nerve gases Sarin and Soman. Farben had many interconnections with companies in the United States and Britain. Consult the illustrative chart in this book.

In a letter abstracted from Fluoridation and Lawlessness, published by the Committee for Mental Health and National Security (with obvious implications) from the aforementioned Charles Perkins, U.S. appointed post-war head of I.G. Farben, to the Lee Foundation for Nutritional Research, Milwaukee, Wisconsin, October 2, 1954, we read the following:

"We are told by the fanatical ideologists who are advocating the fluoridation of the water supplies in this country that their purpose is to reduce the incidence of tooth decay in children, and it is the plausibility of this excuse, plus the gullibility of the public and the cupidity of public officials that is responsible for the present spread of artificial water fluoridation in this country.

"However - and I want to make this very definite and positive - the real reason behind water fluoridation is not to benefit children's teeth. If this were the real reason, there are many ways in which it could be done which are much easier, cheaper and far more effective. The real purpose behind water fluoridation is to reduce the resistance of the masses to domination, control and loss of liberty."

When Major General Racey Jordan was in charge of the massive lend-lease airlift operations from Great Falls, Montana to Russia, via Alaska, he queried the trans-shipment of considerable amounts of sodium fluoride. He was told frankly that it was to put into the drinking water of the prisoner of war camps to take away their will to resist. It is also interesting that former British Prime Minister Margaret Thatcher, who has a background in academic chemistry, initiated a program involving astronomical expenditures of UK revenue on a fluoridation campaign in Northern Ireland.

**Another letter needs to be quoted at length as well to help corroborate Mr. Perkin's testimony. This letter was written by a brilliant (and objectively honest) scientist named Dr. E.H. Bronner. Dr. Bronner was a nephew of the great Albert Einstein, served time in a WWII prison camp and wrote the following letter printed in the Catholic Mirror, Springfield, MA, January 1952:**

"It appears that the citizens of Massachusetts are among the 'next' on the agenda of the water poisoners.

"There is a sinister network of subversive agents, Godless intellectual parasites, working in our country today whose ramifications grow more extensive, more successful and more alarming each new year and whose true objective is to demoralize, paralyse and destroy our great Republic ---- from within if they can, according to their plan --- for their own possession."

"The tragic success they have already attained in their long siege to destroy the moral fibre of American life is now one of their most potent footholds towards their own ultimate victory over us."

"Fluoridation of our community water systems can well become their most subtle weapon for

our sure physical and mental deterioration. As a research chemist of established standing, I built within the past 22 years 3 American chemical plants and licensed 6 of my 53 patents. Based on my years of practical experience in the health food and chemical field, let me warn: fluoridation of drinking water is criminal insanity, sure national suicide. DON'T DO IT!!"

"Even in very small quantities, sodium fluoride is a deadly poison to which no effective antidote has been found. Every exterminator knows that it is the most effective rat-killer. Sodium Fluoride is entirely different from organic calcium-fluoro-phosphate needed by our bodies and provided by nature, in God's great providence and love, to build and strengthen our bones and our teeth. This organic calcium-fluoro-phosphate, derived from proper foods, is an edible organic salt, insoluble in water and assimilable by the human body; whereas the non-organic sodium fluoride used in fluoridating water is instant poison to the body and fully water soluble. The body refuses to assimilate it."

"Careful, bonafide laboratory experimentation by conscientious, patriotic research chemists, and actual medical experience, have both revealed that instead of preserving or promoting 'dental health', fluoridated drinking water destroys teeth before adulthood and after, by the destructive mottling and other pathological conditions it actually causes in them, and also creates many other very grave pathological conditions in the internal organisms of bodies consuming it. How then can it be called a 'health plan'? What's behind it?"

"That any so-called 'Doctors' would persuade a civilized nation to add voluntarily a deadly poison to its drinking water systems is unbelievable. It is the height of criminal insanity!"

"No wonder Hitler and Stalin fully believed and agreed from 1939

to 1941 that, quoting from both Lenin's 'Last Will' and Hitler's Mein Kampf: "America we shall demoralize, divide, and destroy from within."

"Are our Civil Defense organizations and agencies awake to the perils of water poisoning by fluoridation? Its use has been recorded in other countries. Sodium Fluoride water solutions are the cheapest and most effective rat killers known to chemists: colourless, odourless, tasteless; no antidote, no remedy, no hope: Instant and complete extermination of rats."

"Fluoridation of water systems can be slow national suicide, or quick national liquidation. It is criminal insanity ----- treason!!"

-Signed: Dr. E.H. Bronner, Research Chemist, Los Angeles

Apparently, the public outcry by Dr. Bronner and others precluded the fluoridation of public water systems for a season - but soon thereafter, the Food and Drug Administration allowed this deadly poison to be put in 'toothpaste', and our dentists were systematically brainwashed into providing 'fluoride treatments' to their many patients. Of course, today many major metropolitan areas have a minimum of 1 parts per million sodium fluoride systematically added to their water supply and more areas are seeking to add this poison every year. Add to this the fact that bottling companies (soft drinks, juices, etc.) use fluoridated water to make their products - is it any wonder that people can no longer think clearly and ask pertinent questions of their elected and ecclesiastical leaders? Is it also a mystery why so many top Nazi mind

control scientists were brought to America by the CIA and their infamous 'Operation Paper Clip'?

If you believe all of this is 'just a coincidence' - go ahead and keep brushing your teeth with your 'fluoride' toothpaste and sucking on your sodium fluoride enhanced Coke or Pepsi product - for ignorance truly is bliss and you truly deserve what you get.

Mothers, if your little ones are having trouble concentrating at home or in school, or have been diagnosed as 'attention deficit' - perhaps you would be well advised to look for the culprit (and the solution to the problem) no further than your home medicine cabinet (your tube of toothpaste) and your friendly neighbourhood school's water fountain!!
