"Dr Royal Rife"s investigated the cause of many diseases including cancer. Dr Rife used the most advanced microscope in the world to identify the existence of a Virus that he believed was the sole contributor to all cancers. This microscope was the most powerful of its time, and was invented and constructed by Dr Rife himself; for the sole purpose of locating the Virus that contributed to Cancer.. The birth of the Rife Machine was to be the solution to elimination of this Virus, and Rife performed successful Rife Machine treatments with many patients over the years. This was verified by the U.S.C. Medical School Special Medical Research Committee." † USC-0292E41-Page1203(b)

The Rife Machines

The Rife Professional Series use specific frequencies from the 3500 frequency list book to stimulate a altering of bioresonance in the cells, reversing the change caused by the disease. Transmitting these frequencies over the same electrodes (straps) over a period of time generates healing signals that have the curative effect. With this method of treatment, practitioners claim to be able to detect and cure a variety of diseases and addictions without drugs.

Used successfully in Germany for more than 16 months, and with over 15000 users, The Rife Digital Professional series is a German model which is now available to USA. The Rife Digital Professional specializes in running all of the Bioresonance frequencies pertaining to Dr Rife's original machine. It is a higher powered device using 16v DC, 4500ma, averaging an output of about 15 volts and 1 million Hertz frequencies to the body. This model comes into alignment with the standard industry Rife Machines now available for many thousands of dollars more, Rife Digital Professional now incorporates Carrier Wave, and
