

# Illuminati's Biggest Crime? Suppressing Tesla Technology

June 6, 2010

**Nikola Tesla, 1856-1943, the man who invented the "flying saucer"**

**by Christian Soderberg

In 1911, Nikola Tesla revealed he was working on an anti gravity "flying machine".

*"My flying machine will have neither wings nor propellers. You might see it on the ground and you would never guess that it was a flying machine. Yet it will be able to move at will through the air in any direction with perfect safety, at higher speeds than have yet been reached, regardless of weather and oblivious of "holes in the air" or downward currents. It will ascend in such currents if desired. It can remain absolutely stationary in the air, even in a wind, for great length of time. Its lifting power will not depend upon any such delicate devices as the bird has to employ, but upon positive mechanical action." - Nikola Tesla in New York Herald Tribune, Oct. 15, 1911*

What happened to this anti-gravity craft of Tesla's?

When we understand that Tesla's "flying saucer" was powered by a so called "free energy system", a.k.a. 'over unity'-system (you get more energy out than you put in) at a time when the fledgling aviation and motor car industry was based on the oil and petroleum, it is quite easy to understand what happened to these inventions.

Extracting energy from the Aether, and the so called 'aether physics', is based on the cosmos being 'all filled with substance', which is in constant, perpetual motion.

Because there is no empty space in the cosmos, every time the "aether" gets disturbed, which is all the time, 'replacement' takes place, and so the whole cosmos is in constant motion, energized by the so called Zero Point Radiation (ZPR), the electromagnetic-radiation between all particles of the cosmos, which comes in various frequencies, effecting the different particles accordingly.

The same way the atoms of our bodies are in constant motion, oscillating, and being 'kept together and separate' by electromagnetism, so it is also with this 'all permeating medium', the aether, which transmits the ZPR to the atomic matter, so energizing it.

In "layman's terms"; the craft excludes itself from the gravity of planetary bodies with high frequency and high voltage electromagnetic radiation, and propels itself in the aether-medium with these HF-electromagnetic waves. Because the craft is excluded from the planetary gravity, the crafts are capable of fantastic acceleration and sharp turns in high speed without the crew inside the craft feeling any G-force effects.

Not only did the so called Illuminati (industrialist-banking cabal) steal this "aether physics"-technology, they also changed the "human knowledge of physics", replacing the knowledge of this aether-cosmos with Einstein's theories, now promoted everywhere.

..to name few benefiting from this theft.

- J P Morgan (banking, energy, railroads, US Steel)
- Edison & General Electric (oil & energy, railroads, aviation, war industrials, banking)
- Rockefellers (oil, banking, Nazi connections through IG Farben)
- Rothschilds (banking, oil & natural resources ..connections to Kuhn Loeb & company through Jacob Schiff )
- Ford motors (motors, war industrials)
- Brown Brothers Harriman & Co (banking, ship yards, railroads, IG Farben)
- Du Ponts (chemicals& war industrials, General Motors, IG Farben)
- Vanderbilts (railroads, ship yards)
- Boeing Company (aviation)

- Lockheed (aviation)

... Oil & energy, steel and other natural resources, railroads, ship yards, aviation, car industry, spare parts, logistics, banking & finance, war industrial complex ..are some of the reasons to steal and keep this technology hidden.

The official excuse behind this technology theft by this industrialist-banking cabal would be, of course; "In the interest of national security" .."if Al CIA-da got hold of these..".

Hiding this technology "for national security" has cost humanity trillions and trillions of dollars and wrecked the health of humanity and the planet.
