

Scofield Reference Bible Deception

I've had basically one bible my entire Christian life, over 35 years. I've spent countless hours reading it, studying it, making notes in the margins, teaching from it and "thumping" people on the head with it. And yet, no book has caused me more confusion than the Scofield Reference Bible.

Little did I know that my confusion was in large part the result of so-called Christian seminaries and so-called Christian leaders, some of whom are listed on the frontispiece of this reference Bible, using Scofield's work, wittingly and unwittingly, to lead astray countless millions of Christians for over 100 years now, myself included. How could such a deception go undiscovered for so long by so many who should have known better? It was not until my coming to understand the DSCI view of Scripture, was my confusion removed. Surely, these Christian leaders will be among those to whom the Lord will say, "Depart from me, I never knew you."

The fact is, the Zionist jew Samuel Untermyer was the go between - between Scofield and the Zionist backers, alleged to be the Secret Six - that enabled a true deadbeat dad - Scofield - to produce the work that bears his name. This infamous Bible reference work [which is in fact Oxford Press' property, another deception], and has been used to deceive so many, for so long, should be enough proof for any one with a working brain cell to realize the extent to which the so-called jews [Revelation 2:9; 3:9] have gone in their deception of their number one enemy, the people of Yahweh. And, the fact that so many Christian leaders of so many denominations have been a part of this deception, should be a warning to any who love the truth; these men are not men of God.

My prayer is that millions of Christians wake up to the fact that they have been deceived by Scofield, by Oxford Press, the men listed as members of the editorial committee and the many scoundrels in sheep's clothing, e.g., Hagee and Robertson, who continue to propagate the false claims found within the pages of the Zionist financed Scofield Reference Bible.
